Robin,

Senator Risser is requesting draft legislation to change the statutes to allow 16 year olds to donate blood with parental consent. According to the American Red Cross, 18 other states currently allow this practice.

Please let me know if you have any questions.

Thanks,

Sarah

* Current law does not contain a clear prohibition against minors donating blood. ✓
* Current law just provides that persons who are 17 years of age or older may donate blood in a "noncompensatory" program. Do you want to provide that persons under 16 years of age may not donate blood. If you elect to keep the current law authorization, as modified for 16-year-olds, do you want to maintain the qualification that it only applies if the donation is not compensated? ✓
